

# BAKER BROTHERS

## Watch Size Guide

Instructions:

1. Print out this page on A4 paper. Ensure you do not have 'Fit to Page / Page Scaling' selected.
2. Check the Guide against a ruler to make sure it has printed to the correct scale.
3. If everything measures up, cut out the Guide.
4. Carefully cut along the dashed line - this will provide a slit to make measuring easier.
5. Place the Guide around your wrist and pull the pointed end through the slit.
6. Make sure you leave enough room between the Guide and your wrist for an index finger to fit.
7. Read the measurement in millimeters as it appears through the slit - This is your watch bracelet size!
